LIGHTS AND SHADOWS OF OUR ANCESTORS

TRANSGENERATIONAL WORKSHOP

The next international workshop in Psychogenealogy and Transgenerational Therapy, “**Lights and Shadows of our Ancestors**”, with **Leandra Perrotta** and **Manuela Maciel**, will be held on the **8th - 9th March 2025**.

Family legacies have a profound impact on the formation of emotional symptoms and can lead to repetitive patterns of behaviour, such as “anniversary syndrome” or “invisible loyalty,” which are unconsciously passed down through generations. Future generations often preserve these loyalties by accommodating dysfunctional family patterns and re-enacting similar life scripts as a way of addressing unresolved trauma and unfinished business within the family system.

This workshop provides a unique opportunity for both personal exploration and professional development in a safe and supportive environment. Participants will engage with foundational theories while gaining a deeper understanding of Transgenerational Methods through experiential learning. Key clinical tools and techniques demonstrated during the workshop will include the Genosociogram, Transgenerational Psychodrama, and other expressive methods designed to uncover and transform intergenerational patterns.

The Transgenerational Therapy Workshop is recognized as part of the CPTT training but is also open to anyone seeking to explore transgenerational issues for personal growth or professional practice. Whether you are a therapist, facilitator, or someone curious about the influence of family legacies, this workshop offers a rich space to reflect, heal, and grow.
